

DISASTER RECOVERY AND BUSINESS CONTINUITY DISCLOSURE

As part of its fiduciary duty to its clients and as a matter of best business practices, Hollencrest Capital Management (HCM) has adopted a disaster recovery and business continuity plan (“BCP”) in the event of an emergency or a disaster. The BCP policies and procedures are designed to allow Hollencrest to retain certain records and resume providing service to its clients in as short a period as possible. The BCP is, to the extent practicable, designed to address those specific types of disasters that the firm might reasonably face given its business and location. Disasters can range from fire, flood, earthquake, explosion or pandemic to a power failure, serious computer malfunction or information security incident. The firm’s BCP objectives are to:

- ensure the safety of HCM employees
- minimize financial loss to the firm
- continue to serve clients
- mitigate any negative impact of the disruption on the firm’s strategic plans, reputation and operations
- remain compliant with applicable laws and regulations
